

City of Hartford  
Mayor Luke A. Bronin

**Housing Preservation  
Loan Fund Program**

**SPOTLIGHT**

Stephanie Lewis is a disabled grandmother with custody of three grandchildren living at her 3-bedroom home at 230 Granby Street. She has lived in this home in the Blue Hills neighborhood for 14 years.

When the City heard that Ms. Lewis was in need of several repairs and improvements at this property the Division of Housing immediately took action, reaching out to our partners —Rebuilding Together Hartford, CT Children’s Medical Center, and Hartford Area Habitat for Humanity to assist.

With our partners, the City was able to secure funds in the form of loans and grants for a successful outcome for Ms. Lewis’ home.

Hartford contractors completed various improvements and repairs including; a new bedroom addition to address an overcrowding situation, new energy efficient windows, doors, and appliances, a new driveway and walkway, and various code repairs.

Ms. Lewis is excited about the heating system repairs completed just in time for Winter. Her granddaughters love their new bedroom, since they no longer have to sleep on mattresses on the floor. Her newly paved driveway and walkway have made travel from her car to the house safer.

Her entire family is looking forward to celebrating Thanksgiving at Stephanie’s home this year!
